

Carried by hand.
Every mile. Every flight

EMBRYO LINKS

SC 20/12V

SPECIALIST BIOLOGICAL COURIER

Clinic to Clinic. *Anywhere in the World.*

Point-to-point transport of embryos, eggs, sperm
and stem cells between IVF clinics worldwide.
Carried by hand in the cabin. Never in cargo.

ISO 9001 Certified

UN3373 Qualified Staff

UK • EU • Iran • Worldwide

What We Transport

Every shipment travels in an MVE SC 20/12V cryogenic dry shipper. Cabin baggage only — never checked in, never cargo.

BIOLOGICAL MATERIALS

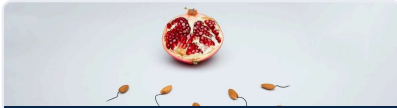

Embryos

Fresh and vitrified embryos in continuous liquid nitrogen. Full temperature record from collection to handover.

Eggs (Oocytes)

Donor and patient oocytes transported with all export and import documentation secured before departure.

Sperm Samples

Frozen specimens transported with Ministry of Health export licence and import clinic receiving agreement.

Stem Cells

Cord blood and stem cell preparations. GDP-aligned cold chain. UN3373 qualified courier throughout.

Clinical Blood

Blood samples and biological specimens for fertility diagnostics and cross-border laboratory analysis.

Vaccines & Biologics

Temperature-sensitive biologics requiring unbroken cold chain across international borders.

EQUIPMENT

MVE SC 20/12V Cryogenic Dry Shipper

DGR-exempt. Pre-approved on Turkish Airlines, Emirates, Qatar Airways, British Airways, FlyDubai, Oman Air, Cyprus Airways and Air Canada. Written airline approval obtained per booking before any ticket is purchased.

WHO WE ARE

Embryo Links is a specialist biological courier transporting embryos, eggs, sperm, and stem cells between IVF clinics worldwide.

Dedicated point-to-point, clinic-to-clinic logistics with ISO 9001 certified quality management. All personnel hold UN3373 qualifications.

We specialise in international routes connecting the UK and Europe with fertility networks across Asia and the Middle East, including Oman, Malaysia, Iran, Bangladesh, and beyond. Serving clinics and patients globally with full administrative and customs coordination.

"Your sample never leaves our hands — from collection to clinic handover."

How It Works

From first enquiry to clinic handover — a fully managed process. We coordinate export licences, import agreements, airline approvals and customs documentation on your behalf.

THE PROCESS

- 01 Enquiry & Onboarding**
Contact us by phone, WhatsApp or the website form. We respond the same day. A welcome pack and booking form follow immediately — covering both clinics in full.
- 02 Agreement & Payment**
A formal transport agreement is sent electronically for signature. On acceptance, an invoice is issued and deposit requested within three days.
- 03 Clinic Coordination**
We contact both clinics directly. Export clinic provides: No X-Ray letter, patient Appendix 3 consent, export licence naming Embryo Links. Import clinic provides: receiving agreement, customs release letter, No X-Ray letter.
- 04 Airline Approval**
We contact the airline's dangerous goods division to obtain written approval for the cryotank as cabin carry-on. Confirmed in writing before any ticket is purchased.
- 05 Transport & Delivery**
Courier travels with the tank in the cabin. WhatsApp updates at collection, departure, arrival and handover. Delivered directly to the receiving embryologist with full documentation.

WHY EMBRYO LINKS

Cabin

Tank travels in the cabin — never in the cargo hold

ISO

ISO 9001 certified operations. GDP-aligned cold chain

Direct

Point-to-point clinic to clinic — no intermediaries

24/7

WhatsApp updates throughout every journey

COMPLIANCE & DOCUMENTATION

- UN3373** All couriers hold current UN3373 Biological Substance Category B qualification.
- ISO 9001** Certified quality management system. Temperature records available for regulatory audit.
- CAA** Civil Aviation Authority certified. Written airline approval obtained per booking.
- EXPORT** Export clinic applies for Ministry of Health licence naming Embryo Links LLC as courier.

"Your embryo isn't freight. It's hope. It's years of effort, heartache and love. That's why every Embryo Links courier carries your sample as a personal responsibility — not just a job."
